

## Welcome Freshman!

- What is the penalty for a student who played at school A during their freshman year and then decides to attend school B their sophomore year?
- That athlete will not be able to participate at the varsity level for 50% of the season at school B. They can participate at the sub-varsity level while serving their penalty. This penalty only relates to any sport that the athlete played at high school A, or any other high school other than high school B, during the previous 365 days.
