Discussion and approval of the School Improvement Plan

Technology survey showed that 5% of our students do not have access to Blackboard outside of school. The impact of this will be shared with teachers so that they can make accommodations for students to get Blackboard information. Assistant principals will work with their grade level support teams to see if there is a correlation between kids with poor attendance and access to Blackboard.

School Safety Survey will need to be conducted to ensure that all students feel safe and connected to FRHS. Jeff will look to see if we have the questions from Jeff Sizer's work with FRHS. Dierdre will see if we can purchase a survey to be given pre-post every year. This is very important in light of the freshman class and wanting to avoid harassment of younger students. We hope to have this information by the next meeting.

Attendance continues to be below the goal. Dierdre will bring back information from the other high schools regarding their attendance rate.

School Improvement Plan was approved and is an on-going document subject to change as needed. What happens to improve instruction in the classroom is most important.

Meeting time changed to 4 pm.

Meeting schedule for 2008-09 includes: November 17, January 12, and April 6 and May 18th in the Administrative Conference Room.
