

## District and School Academic Achievement Goals

### **Academic Achievement**

Math Achievement Goal: Annually, each student should improve skills and proficiency in mathematics as measured by the performance on CSAP exams. The percentage of students in the unsatisfactory category of CSAP will decrease by a minimum of 10%. The total percentage of students who score in the combined Proficient and Advanced CSAP categories will increase.

Reading Achievement Goal: Annually, each student should improve skills and proficiency in reading as measured by the performance on CSAP exams. The percentage of students in the unsatisfactory category of CSAP will decrease by a minimum of 10%. The total percentage of students who score in the combined Proficient and Advanced CSAP categories will increase.

Writing Achievement Goal: Annually, each student should improve skills and proficiency in writing as measured by the performance on CSAP exams. The percentage of students in the unsatisfactory category of CSAP will decrease by a minimum of 10%. The total percentage of students who score in the combined Proficient and Advanced CSAP categories will increase.

### **Advanced Classes**

The number of students enrolled in secondary advanced classes should increase by 10% by the year 2005-2006 (Pre-advanced Placement, Middle Years IB program, Honors, Advanced Placement, and International Baccalaureate). Specific emphasis should be placed on students receiving free/reduced lunch benefits and Hispanic students.
