DINOSAURS IN THE MOVIES

How have our perceptions of dinosaurs changed over time? *In a live video conference* journey through time and come face-to-face with some of the mightiest dinosaurs. You will be guided through a series of film clips; from the earliest animations to modern digital techniques, each clip is followed by supporting animation and/or fossils viewed via document camera. You will discover how the portrayal of dinosaurs in movies and our scientific understanding of them have evolved together.

Preston Media Center
November 19th
6-7pm

5th graders from our feeder schools as well as current Preston students and all parents are welcome. No reservations required, just show up and have fun.
